

Application form

Feasibility study - *New building*

Identification of firm responsible for the simulation:

Name of the firm

Person performing the simulation

Professional qualification:

Architect Technologist Engineer

Address

Telephone

Email

Information on the simulation:

Simulation software used _____

Information on the new building:

Area in square metres (m²) _____ Area heated (m²) _____

Address of the building

Is the building put to more than one use? Yes No

If so, please complete the table below:

Type of use	Area (m ²)

Feasibility study - New building (CONTINUED)

Date of building permit: ____/____/____

Expected date of first use: ____/____/____

Information on energy consumption :

Please complete the table below, using data from the energy simulation:

TYPE OF USE	Reference building		Proposed building	
	Electricity (MJ)	Natural gas (MJ)	Electricity (MJ)	Natural gas (MJ)
Lighting				
Equipment				
Space heating				
Air conditioning				
Heat rejection				
Pumps and others				
Ventilation				
Domestic hot water				
TOTAL				

Information for the issuance of the financial assistance:

Name: _____

Address: _____

Mail us the completed application form, and be sure to attach a copy (on CD) of the corresponding simulation data.

Mailling address : ATT: Programmes d'efficacité énergétique, 706, boulevard Gréber, Gatineau (Québec), J8V 3P8
